UBMK 2021 provides a forum for researchers, practitioners and educators to present and discuss the most recent researches, innovations, trends, experiences, and concerns in the field of computer science, computer/software/information systems/information security engineering and computational methods.

In parallel with the regular scientific presentations, Heads of Departments of Computer Engineering Council (and other related departments) will meet to discuss the quality issues and problems in the computing field specifically the computing curricula in Turkish Universities as part of the 35th Convention of the Assembly.

Every paper is reviewed by at least two reviewers. Upon completion of the reviews, authors can see the reports of reviewer. The next step is to check the paper for plagiarism. All accepted papers will appear in the conference program and in proceedings of the conference. Only presented papers will be published in IEEE Xplore.

Conference organized by Heads of Computer Engineering Council (BMBB) and with cooperation of Turkish Informatics Foundation (TBV). Special discount and support are provided for students and IEEE members.

The aim of conference
To gather computer engineers, computer scientists, software engineers, information engineers, computer security engineers, academics and researchers as well. Promote new ideas and applications. Develop cooperation between industry and academia.

The theme of conference
The main theme of the conference is quantum computing. However, applicants are encourage to submit their original research works in all fields of computing and computational sciences. The sub-themes of the conference are:

- Algorithms and Algorithmic Designs
- Artificial Intelligence and Applications
- Big Data Analytics
- Cloud Computing, Applications and Security
- Computer Architectures
- Computer Networks and Applications
- Databases Technologies, Applications, and Security
- Data Science
- Data Structures
- Information and Computer Security
- Information Theory
- IoT
- Mobile Computing
- Operating Systems and Applications
- Programming Languages
- Software Engineering
- Virtualization
- Web and Data Mining
- Web Technologies and Applications

Important Dates
Paper submission deadline : 1 June 2021
Notification to authors date : 10 July 2021
Last day of camera-ready submission 10 August 2021
Paper acceptance latter to authors : 20 August 2021
Announcements of detailed conference program : 1 September 2021
Deadline for early registration : 14 August 2021
Conference days : 15-16-17 September 2021

Regular and Late Registration Fees (USD)
Regular attendees : 500
Students : 300
IEEE Members : 400

Limited supports are available for participant
